## Exploring your Life Mandala

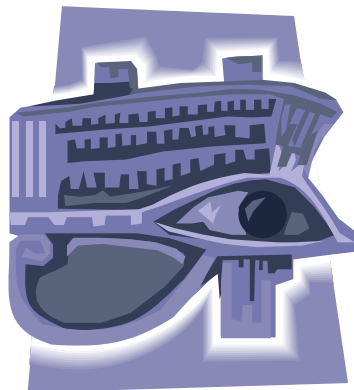

Here is a unique opportunity to work at developing your Intuitive sensitivities and stimulate the unfolding of your Inner Eye of Light

- and all within the comfort of your own home!

Scandinavian students & International participants can now enjoy this inspirational Distant Education experience with Derek Seagrief. Last year 30 students took the 1-Year Online Training: "Exploring your Inner Mandala" - is it your time now.....?

### How does this work?

1. Study material is sent via email as the transit Sun enters each of the 12 Zodiacal signs during the period of 1 Solar year.
2. The main focus of the Training is to provide student's with knowledge & creative references to how the Sun gives Life to each sign - and then how this is translated into two of the archetypal images of the Tarot cards (sign & planet).
3. These Astrological & Tarot correspondences are then related to your own horoscope & life circumstances throughout the 12 months. There are included many exercises in the material that help illustrate the themes of each month, enabling you to see the links with your own life and reality.
4. Each month's material contains between 3-5 exercises for you to complete within the 4 weeks the Sun remains in each of the 12 signs. Your written response to these exercises & questions, will form the basis of the monthly tutorials. Students can write in English or their own Nordic language.
5. Additionally, you receive 24 Guided Visualizations.
6. One 60-minute Tutorial via Skype & Webcam at the end of every 2 month's lessons enables you to keep the focus. In total there are 6 Tutorials which provide invaluable coaching & mentoring for students, enabling you to be a gardener working in your own garden. These Tutorials are recorded digitally & sent as Voice Mail for you to download on your computer.

## Here is the 1-Year Training Schedule - month by month
