- *In mythology the appearance of the God Jupiter was represented by the high-flying Eagle. At Jupiter Center this Eagle becomes the Phoenix bird that constantly renews itself to be reborn anew. As many of you know, the pioneering work of Norway's first Rebirther, Sissel Tvedte, who created Jupiter Center, anchored this energy of Rebirthing through her Courses. Also in mythology we find the image of the Eagle & Phoenix bird used throughout Alchemical symbolism to indicate the healing of the split within our psyche. Our goal is the blending of Head & Heart, to produce a wonderful living dynamic synthesis.*
- **THE JUPITER SCHOOL OF ASTRO-PSYCHOLOGY** is both a Training & Education open to all who want to deeply explore their energy portrait using the amazing diagnostic tool of the horoscope.
- *If you don't know about Astrology & your horoscope, you will learn because of the Workshops, and naturally some basic astrological knowledge will enable you to get the most out of the journey.*

- *Do you want to join a group of like-minded Seekers committed to deeply explore their inner life?*
- *And are you willing to share yourself & your processes within a safe environment, to experiment, explore & learn from the group?*
- *Does the goal of increased integration & communication between body, emotions & mind motivate you? And working more consciously to bring our Ego-Personality into relationship to the expanded perception of the Soul?*
- *If the work of “KNOW THYSELF” using Astrology & modern Psychology excites you – then don’t delay, Register Today!*
